

"Desperate Housecats"

Older Cats Were Once Kittens Too!

As the season grows warmer, CVHS experiences a massive influx of cats and kittens. Every year "kitten season" seems to be extending. This often leaves us in what we refer to as a "cat crisis". Our cute and cuddly kittens rarely stay at the shelter long. While this is wonderful, our young adults, adults and seniors are often overlooked.

Week after week, these cats watch potential adopters come and go, hoping this time they will be the one going home. Remember, these cats were once kittens too! Some gregarious, some shy, some playful - they've been living at the shelter too long. These special felines, waiting for their second chance, will be honored with a **reduced adoption fee** to help them find their new, forever homes.

Just look for the symbol of love - a heart - to denote which of our feline friends is a member of the "Desperate Housecats" club.
(This special program will be effective all year long)
